

SHORT-TERM FIELD ASSISTANT POSITIONS: AVIAN BIOLOGY

A number of short-term field assistant positions (up to five) are available to work collecting data on the breeding biology of tits *Parus*, specifically blue tits and great tits, based at the Edward Grey Institute, Dept of Zoology, University of Oxford. The positions are funded as part of a grant from the European Research Council to Prof Ben Sheldon. The posts are available for two months, from 10 April to 10 June. The main duties of the post-holders will be to carry out fieldwork around Oxford and to assist in the collation and input of data.

Successful candidates will be able to demonstrate skill and enthusiasm for biological research, as well as experience of fieldwork under arduous conditions, and of working as part of a multi-disciplinary team. Fieldwork skills involving birds (e.g. ringing licence) advantageous, although training and support will be provided. Informal inquiries about the positions to Ben Sheldon (ben.sheldon@zoo.ox.ac.uk).

The posts are based in a dynamic and expanding research-active institute, of c. 40 people, fully integrated within the Department of Zoology. Further details about the institute available at: <http://www.zoo.ox.ac.uk/egi/>. Salary £22765 per annum (pro rata). Start date 10 April 2010. Applications (with CV, covering letter and the email addresses of two referees) to Mrs Claire Harvey (claire.harvey@zoo.ox.ac.uk) by 15 February 2010. Short-listed candidates will be interviewed.
